Options

3 Point linkage pickup pins

To enable the roller to be transported on a tractor's 3-point linkage mechanism. Note – the roller must be drained prior to transportation.

Model	4 ft Wide	5 ft Wide	6 ft 6"	8 ft Wide
Price/Unit	£40.00	£40.00	£40.00	£40.00

Our rollers are suitable for numerous applications including sports, recreational areas, paddock and pasture. They are made to a high-quality standard with an adjustable scraper blade which can be fitted to the front or rear cross arm and central cross bridge tie. 2 drain plugs to ease emptying. All fabricated components are prepared with nonferrous abrasive prior to pre-treatment and polyester powder coating. This gives an excellent "key" for the next surface treatment to adhere to and results in a hard, excellent finish to the product.
